Compact video magnifier

■ eMag 120 HD

Compact portable video magnifier in user-friendly design. Features all essential functions of a traditional desktop video magnifier. With unique Color-Boost-Contrast for superior contrast and brilliant colours – in HD quality! Coloured control elements ensure intuitive handling. Folds away easily for transportation.

- High-resolution HD auto-focus cameras for close-up view and self-view mode
- 2 viewing modes: document reading and self-view
- Individual magnification and colour settings are saved for each view
- Multiple comfort features including freeze frame, reading masks (black and shadow), reading lines
- 33 colour modes: true full colours, high-contrast full colours (Color-Boost-Contrast), black on white, white on black, yellow on blue, yellow on black and 27 additional colour modes
- Large controls in different colours facilitate intuitive handling
- Find feature
- Snapshot feature (images can be stored to SD card and played as slideshow)
- Space saving: folds quickly and easily for storage
- Monitor adjusts to any height or vertical tilt for optimal head posture and relaxed reading
